**The showcase and public forum is open to all, free of charge (donation to Winnipeg Harvest will be accepted) and includes:**

- **Main Event:** Presentations by PHEV2007 invited guest speakers describing how they see the future of sustainable transportation. Guest speakers will answer questions from the audience. This forum will provide the chance for the public to understand the role of PHEV in sustainable transportation and interact with PHEV world leaders.
- *Public forums:*
  - Red River Valley Clean Cities Coalition presentation: "Sustainable Transportation: What you can do". Come and learn about current state of the art vehicles and what the public can do to improve sustainability in transportation.
  - Local Success Story: "Adopting hybrid vehicles". A review of hybrid cars by fleet users in Winnipeg and hybrid government programs.

- Presentation to local high school students: "What is a PHEV?" by a leading PHEV expert in simple language. Open to all.
